

# ReXExecutive

*Empowering leadership with the Real-Time visibility they need into the ever-changing location rotation of their office and remote hybrid workforce.*

Companies must embrace ongoing flexible and hybrid arrangements to meet employees' expectations. Maintaining productivity and nurturing organizational culture in this new world which requires real-time visibility and actionable insights.

ReXExecutive™ is part of the ReXLytics integrated stack. It provides critical real-time insights into your evolving workforce. ReXExecutive™ provides you with visibility into where your remote and in-office workers are working, right now, and historically. See your entire remote and hybrid work strategy from one location. Gain valuable insight into your full-time office staff, hybrid staff, and full-time remote. Armed with this knowledge, you can confidently refine your remote and hybrid strategies.

## REAL-TIME VISIBILITY

ReXExecutive™ offers real-time insights into the evolving workforce, providing visibility into the current and historical locations of remote and in-office workers, enabling proactive decision-making.

## ACTIONABLE INSIGHTS

The platform equips organizations with critical insights, allowing them to analyze workforce patterns and trends, empowering confident refinement of remote and hybrid strategies based on data-driven decisions.

## ENHANCED MANAGEMENT

With ReXExecutive™, companies can maintain productivity and nurture organizational culture by leveraging real-time visibility and actionable insights to adapt to ongoing flexible and hybrid arrangements effectively.
